Summary

Engineer with experience in project management, both waterfall and agile. I have managed projects in various fields (IT, Oil&Gas, Steel, etc), which has given me a versatility and a broad vision in all senses. My last project has been as PM in post merger integration, touching all possible areas: client, legal, IT, etc. In my spare time I have developed machine learning models (Tensorflow, Python, Spark. See <https://github.com/meizaguirre86> for more information).
